St. Joseph 5; Des Moines 3.
Lincoln 3; Denver 2.
Sioux City 12; Omaha 2.
Wichita 12; Topeka 6.

Pacific Coast League.
Sacramento 1; San Francisco 4.
Oakland 2; Portland 3.
Los Angeles 3; Venice 1.

New York Loses Both Games.
New York, Sept. 30.—Boston turned the tables on New York today and won both games of a double header. The first game was decided 3 to 2 and the second 3 to 0. In the opener Leonard held New York to seven scattered hits. An error was responsible for one of the two runs. Boston hit Ford hard, bunching hits in three different innings for a run each time.

Athletics Shut Out 3 to 0.
Washington, Sept. 30.—Ayres, a recruit pitcher from Richmond, Va., went through his first full major league game today against the Athletics and shut them out, 3 to 0. The young star pitched a fine game, striking out 11 and giving no bases on balls. Boardman was wild and the support behind him was weak.

Boston Shuts Out Giants.
Boston, Sept. 30.—This was "Tyler" day at the local National league park and "Lefty" George Tyler shut out New York 8 to 0 in Boston's final game of the season with the Giants. The league champions again presented a team of many substitutes and their hitting was weak. In honor of Tyler a delegation came from Derry, N. H., his home, and Mayor Fairbanks of Derry, presented Tyler with a silver loving cup and \$100 in gold. The pitcher's teammates gave him a chest of silver and Manager Gray of the Lowell club, under whose direction he broke into baseball, presented him with diamond sleeve buttons.

Double Header An Even Break.
Philadelphia, Sept. 30.—Today's double header was today ended in an even break, Philadelphia winning the first game 10 to 9, and Brooklyn the second, 3 to 1. In the opening engagement Brooklyn scored nine runs in the first inning. Rixey started and was taken out after two runs had been scored and with the bases filled. Chalmers then went to the rubber and pitched to four batters, six runs going over the plate and a man being on third when Marshall went in. One more run was scored before the inning closed. Philadelphia then beat a great uphill struggle and tied the score by mixing three hits with two passes and two errors in the eighth and won in the ninth when Burns doubled and Knabe singled, scoring Reed who ran for Burns. Ragan pitched the entire game for Brooklyn, while Marshall was taken out in the eighth for a pinch hitter and Camnitz held the visitors in check in the ninth.

DATE OF MATCH ADVANCED.
Chicago, Ill., Oct. 1.—Before leaving today for New York, Willie Ritchie, lightweight champion, received word that the date of his match with Leach

Cross had been advanced to October 28 from October 31. Ritchie last night agreed to meet Ad Wolgast, whom he defeated for the title, or Paddy McFarland at Milwaukee on November 10 or 11.

MARSHALL WINS GAME.
New York, Oct. 1.—The second game of the series of five between Frank J. Marshall, United States chess champion, and the Bohemian champion, Oldrich Duras, was finished at the Manhattan Chess club early today. After 54 moves, Duras who had opened the game with a queen's gambit, declined, resigned. This gave Marshall two points to Duras' none.

FANS ANXIOUS TO SECURE TICKETS

Philadelphia, Oct. 1.—Philadelphia "fans" who are anxious to secure tickets for the approaching world's series baseball games are engaging boys to stand in line all night before the public sale for the contests to be staged in this city opens on Monday, October 6. Companies which furnish messenger boys are making preparations to meet the unusual demand and one company announced that the rate would be raised from 20 to 30 cents an hour for the service.

Although the baseball officials are endeavoring to keep the tickets out of the hands of speculators, it was reported today that one prospective dealer in the coveted pastebards had engaged 20 boys to stand in line from 9 o'clock Sunday night until 9 o'clock Monday morning, when the sale opens. Under the rules adopted this year, 25 mail orders will be honored, and each purchaser must buy tickets for three games in the city and no one will be permitted to buy more than two for each game. In case three games are not played here, money for tickets not used will be returned to the purchasers.

NOTED GOLFER IS BITTERLY OPPOSED

London, Sept. 30.—"Abe" Mitchell, the noted artisan golfer, says that he was driven into the professional ranks on account of the intense hostility shown to him in the last two amateur tournaments because of the fact that he is a working man.

Writing to the Golf Monthly he says: "My chief offense has been when I was born an artisan. In following my occupation to get a living, first as a gardener, then as a chauffeur, I had more opportunities to play golf than the ordinary British artisan has the right to expect. There are golf game classes in England and an artisan golfer is not wanted in amateur circles."

BELMONT REFUSES A \$200,000 OFFER

New York, Sept. 30.—August Belmont, chairman of the Jockey club, it became known today, has refused an offer of \$200,000 for Tracey, the 4-year-old son of Rock Sand-Toplary which has been racing with much success for two seasons in England.

The offer came by cable from Wallis, the well known breeder, who it is thought here, acted in the capacity of an agent.

MIDWEEK GAMES.
New York, Oct. 1.—The University of Pennsylvania is the only one of the major varsity football eleven in the east scheduled to play a midweek game today. Franklin and Marshall will be the opposing force for the red and blue at Philadelphia, but whether they will furnish much of a test is doubtful. Last year Franklin and Marshall was beaten, 35 to 0. Pennsylvania under the new coaching regime has started off with a rush this year, defeating Gettysburg last Saturday, also by a 35 to 0 score.

CHARLES ZIEMER'S HORSE WINNER

The running of Sis Meridian, a trotting horse, owned by Charles Ziemer of Ogden, was the feature in yesterday's racing card in Salt Lake. Sis Meridian was entered in the special trot race and won the three heats easily. At one time when Day Break, keeping close to the leader, threatened to win, the Ogden horse, by a splendid spurt, insured victory.

BROCK WINS IN THE FIRST ROUND

Columbus, O., Sept. 30.—Phil Brock of Cleveland knocked out Eddie Forrest of Philadelphia in the first round of their scheduled 10-round bout here tonight. The men were in the ring just one minute and 27 seconds. A right hook to the jaw put Forrest out.

MEMPHIS FEATHER AWARDED DECISION

St. Louis, Mo., Sept. 30.—"Tackle" Sanders, Memphis featherweight, was awarded the decision over Young Togo of Fort Smith, Ark., after eight rounds of snappy boxing here tonight. The Memphis boy severely bruised the Japanese who fought back gamely but lacked the science. Each fighter scored a knockdown.

PENNA TEAM CRIPPLED.
Philadelphia, Oct. 1.—Injuries received by several players in last Saturday's game with Gettysburg forced the University of Pennsylvania football coaches to send in a crippled team today against Franklin and Marshall college.

BANNER SENT TO GERMAN TURNERS

Indianapolis, Oct. 1.—A beautiful streamer, the token of the North American Gymnastic union, of which Theodore Stempel of this city is president, to the Turners of Germany to be used in their celebration of the centenary of the "battle of the nations" at Leipzig, October 18, was started on its way today.

The banner will be taken to Washington by train and next Friday will be carried by relays of Turners from Washington to Hoboken, N. J., there to be received by the captain of the steamer Koenigsluise, as a special messenger, who will convey it to Germany.

At Bremerhafen, the steamer will be given into the possession of German Turners, 2200 of whom have been

NATIVE WEAVERS ADEPT IN ACT

Columbus, O., Oct. 1.—The richest stake offered during the second week of the Grand Circuit races is the Buckeye for two-year-old trotters, worth \$5000, on the program for this afternoon. Baden won it last year in 2:05 1-4.

STANFORD INSTALLS SECOND PRESIDENT

Stanford University, Cal., Oct. 1.—Dr. John Caspar Branner, one of the oldest members of the Stanford faculty, was inaugurated today as the university's second president. Trustees, faculty, alumni and undergraduates participated in the ceremonies, which were held in the open air.

FALLING OFF ON STOCK EXCHANGE

Totals Show Large Decrease in Business Compared With Last Year.

New York, Oct. 1.—Business on the stock exchange for the nine months of the calendar year ending yesterday showed a marked falling off in comparison with the corresponding period of 1912, despite the greater activity and general price advances of the last few weeks.

At the close of yesterday's session a total of approximately 65,000,000 was recorded for the first three-quarters of the year, while bond sales aggregated about \$128,000,000. These totals represent a decrease of about 31,000,000 shares and \$165,000,000 bonds compared with the same period last year.

To an extent, however, these figures are considered misleading for the reason that under the policy of reform inaugurated by the exchange early in the year, the daily operations of the last few months are believed to represent more actual business than was transacted in former years, when manipulation often was of a flagrant character.

Brokers view the outlook as more hopeful than some months ago. This is indicated in the partial recovery of the price of stock exchange seats from their low price of the mid-year.

NATIVE WEAVERS ADEPT IN ACT

Wonderful Results Obtained By Primitive Methods Still in Vogue in India.

Atlantic City, N. J., Oct. 1.—An interesting talk on the manufacture of Indian muslins, particularly the finer weavers of the district of Dacca, was made today to the National Association of Manufacturers, in session here, by E. N. Murti of Mandapaki, India, who described at length the primitive methods of manufacture still in vogue there and the wonderful results attained by the native weavers, whose ancestors for centuries have been equally adept in the art.

He contrasted the lot of the Indian and the English workers, saying that the freedom of the former from the struggle for existence that crushes the soul of his English brother left him free to give to his work the contentment of mind and leisure, and pride and pleasure in it, which is essential to all artistic excellence.

He said in part: "Neither tradition nor history can give any precise information about the time when cotton first appeared as an important article in the domestic economy of our Indian household. But as geology has preserved early forms of life upon the earth, so our Indian society preserved in its different strata the manners and customs of prehistoric ages, side by side with the highest types of modern civilization."

"While the greater part of the world was in such a low state mentally, morally, and physically and while they were dressing in skins of animals or in coarse cloth made from grass, flax, or wool, there were people living in India who were dressing in fine cottons and beautiful colored fabrics. It is the showy things that first attract the attention of the very primitive people, and when the beautifully colored fabrics of the civilized portions of the world were brought to Europe they excited much admiration."

Some of the finer weaves were named by the speaker, among them the "Mulmukhas," of which a piece ten by three yards weighs slightly over three ounces and may be drawn through an ordinary finger ring. This is made and reserved for the private use of the king. The "Jhuna" a thin net, is worn only by Indian dancers and singers and ladies of the wealthiest classes and the "Subana" (evening gown) is described as being so fine that when spread on the bleaching field it can scarcely be distinguished from the dew on the grass.

"As regards the fineness," he continued, "many travelers to India bear testimony. Some of their muslins might be thought the works of flies or of insects, rather than of men, but these were seldom exported to the foreign countries. Mention is made in the Mahabharat, which has proved to be over 3000 years old at least, at all events, it was in evidence 1400 B. C., of the presents brought to Udhishtr as the paramount Lord, these included muslins from Gurjar, Karnatic, and Mysore."

"The most ancient statutes com-

DEPORTED MEN LEAP TO DEATH

New York, Oct. 1.—Four men, who were to have been deported on the steamer France, obtained liberty or death today by leaping forty-five feet from an upper deck to the Hudson, as the vessel lay at her pier. All trace of the men was lost. The finding of two life belts in the river, however, led to the belief that they had perished.

GREAT EXODUS TO U. S. SAIL

Hundreds of Mexicans Seek Safety Across River in Eagle Pass.

Washington, Oct. 1.—Although a great exodus of refugees from Piedras Negras, across the Rio Grande, into Eagle Pass, Texas, has taken place within the last 24 hours, officials here pointed out today that only a small portion of them are Americans. Hundreds of Mexicans have been concentrated in Piedras Negras from the interior of Coahuila and many of these, fearing for their safety in the event of the expected occupation of the Constitutionalists capital by Mexican federalists, have sought an asylum on American soil.

Officials at the war department are not alarmed over the situation, now that the border patrol has been reinforced by additional soldiers from Fort Sam Houston, and they suggested today that the presence of a machine gun platoon on the American side at the international bridge would in all likelihood insure protection, regardless of the straits in which the hard pressed Constitutionalists may find themselves.

So far no application has been received for the admission into Eagle Pass of a band of Japanese who, it is said, fear the federal occupation of Piedras Negras because their sympathies have been with the Constitutionalists. In case they should be granted an asylum on the Texas side, it is probable they would be interrogated immediately after over the payment of their board bill. The Japanese are said to be destitute.

NEGRO CLEARED OF SUSPICION

Mysterious Woman Is Wanted in Connection With Gay Murder Case.

Los Angeles, Oct. 1.—Robert Askew, a negro, today is practically cleared of any suspicion in connection with the murder of Mrs. Rebecca P. Gay, Christian Science practitioner, last Friday night. He probably will be released in a few days after he serves a term for drunkenness. Persons who saw a mysterious negro who loitered around the murdered woman's office now declare Askew is not the man.

A mysterious "Mrs. Wallace" is being sought. Her name frequently was used by the mysterious negro in his visits to Mrs. Gay's and neighboring offices. A certain Mrs. Wallace known to Mrs. Gay disappeared mysteriously on the morning after the murder, it was said today.

IN THE CAMP.
"I am the Army doctor, Captain, come to vaccinate your company."

ITS VALUE.
"Don't you think a detective automobile corps would be a useful thing?"

RAILROAD RATES NEED A RAISE

Owners and Users of the Roads Should Co-Operate For Improvement.

GENERAL POLICY

Rules, Regulations and Methods Required Increase Expenses Each Year.

Boston, Mass., Sept. 30.—A short route to the restoration of public confidence in the railroads of the country would be furnished by a positive declaration by federal and state commissions that rates may be advanced, in the opinion of Howard Elliott, new president of the New York, New Haven & Hartford railroad. Mr. Elliott made this statement tonight in an address before the Boston Chamber of Commerce. The needs of railroads generally are discussed at length by Mr. Elliott, who said in part:

"If we are to continue to have privately owned railroads supervised and regulated by governmental authority and if we are to avoid ownership by the government, the owners and users of the railroads must work together. Personally, I do not believe in governmental ownership in a country like the United States where our political methods still are in need of improvement."

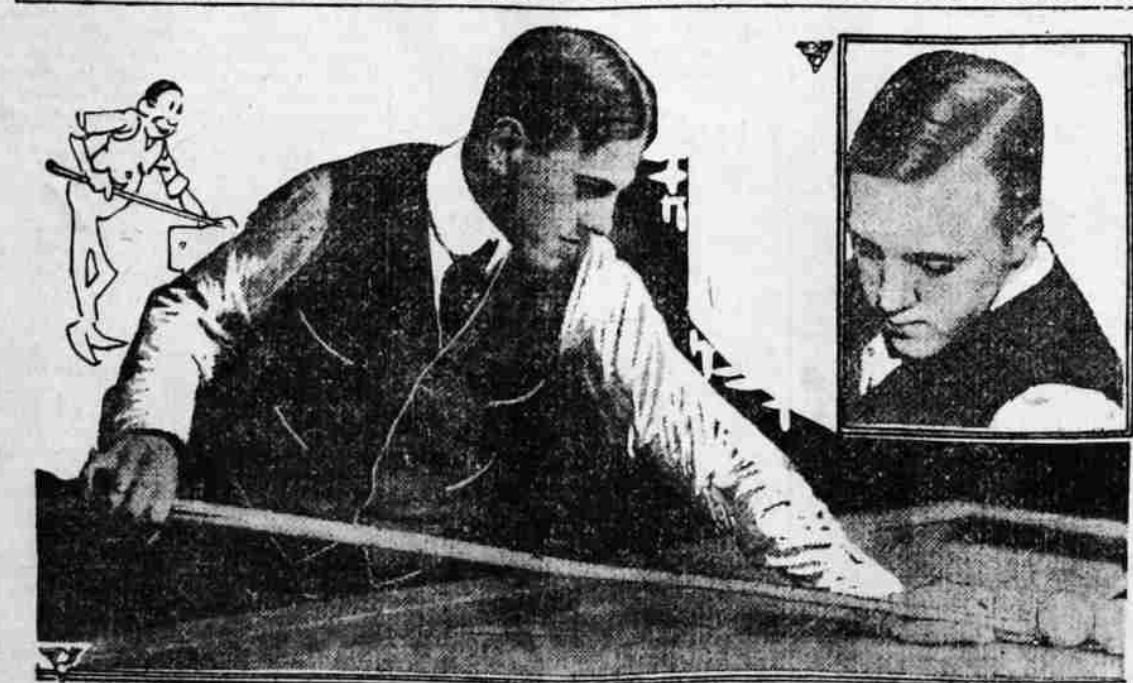

"The policy of the government—nation and state—in the last twenty-five years, seems to have been to decide rate questions in the great majority of cases in such a way that rates rarely were advanced and generally were reduced and to introduce rules, regulations and methods that increased expenses. The commissions naturally feel the great pressure of the millions of users of railroads for reduced rates and increased facilities. But if the rates continue to decline, or even remain on the present level and if expenses are increased by higher wages and costs of materials and by the introduction of different appliances and facilities for more rapidly than the roads can obtain money, then there is but one result for some of the railroads of the United States—bankruptcy. I believe the commissioners, who have such great powers—realize their responsibility to the owners of the properties as well as to the users, and I hope earnestly that they will give practical evidence of their realization by permitting some advances in rates."

A REMARKABLE DISCOVERY

A week or two ago the Record-Herald had some comment to make on the fact that El Pibe, the youngest Señora la Reina de Los Angeles, a painfully proper, moral and progressive village, had decided in its superior way not to get after the dice game. About the same time it was discovered that dice games are being run in the cigar stores and other business centers of this city, and it is not too much to say that this is the greatest discovery since tobacco was first used by white men. The remarkable thing about it is that there has been no time for months and years that the petty gambling has not been going on, but the seeing eye has been waiting.

While the physical fact was so patent that there was no escaping it, such was the dullness of the mental vision that, except the few who are always on the trail of the serpent, nobody thought a word about it, then the sensation swelled up and burst. The gas escaped but the dice remained. Does this mean that the gambling is to be tolerated now and for ever as a business attraction?—Chicago Record Herald.

DEMAREST COVETS HOPPE'S TWO TITLES; CHICAGO CUE EXPERT ACQUIRES STEADINESS IN PRACTICE FOR COMING MATCHES

Calvin Demarest (Insert) and Willie Hoppe.

Calvin Demarest of Chicago, formerly amateur billiard champion and a brilliant performer in the ranks of the professionals, announces that he will seek the 18 1/2 and 18 3/4 ball titles now held by Willie Hoppe. Demarest, who is only twenty-seven years old, believes that the youthful champion has reached the top of his game, whereas the Chicagoan in daily exhibitions has gained the necessary confidence in himself to warrant challenges to the champion.
